UNITED PLATE GLASS COMPANY
PYRAN PLATINUM-L FIRE-RATED GLASS WARRANTY

United Plate Glass acknowledges and conforms to the same warranty as the manufacturer, SCHOTT, on our supplied PYRAN® Platinum-L product.

SCHOTT warrants that their products shall be free from defective material and comply with the published Quality Specifications and Inspection Standards for a period of five (5) years from the date of delivery provided that said products have been installed and maintained in accordance with the installation instructions and published maintenance recommendations.

This warranty is limited to the replacement of defective material and shall be determined at the discretion of the manufacturer as to what action to take.

SCHOTT extends the PYRAN® Platinum-L manufacturer’s warranty to the immediate buyer. The conditions of this warranty for the PYRAN® Platinum-L glazing material are as follows:

The supplier warrants its immediate buyers for a period of five (5) years from the date of delivery that under normal conditions, the product will be free from manufacturing defects that cause significant visual disruption through the glass area, delamination, or material changes to the properties of the interlayer.

The warranty is subject to the following provisions:

- A liability under this warranty is limited to free replacement (at the manufacturer’s discretion) of the defective glass and shall not extend to any other damages in connection with defective glass. Installation of the replacement glass is not covered under this warranty.
- The warranty shall not apply to product which have not been handled in accordance with normal conditions of use, product which have been subsequently processed or modified in any way, or product which have been subject to any damage affecting the surface of the PYRAN® Platinum-L.
- The manufacturer’s liability will also not apply in cases where defects are not reported within 30 days after they have become recognizable by the initial buyer or by a subsequent buyer or by the users of the building into which PYRAN® Platinum-L has been installed. Liability will therefore expire at the latest 30 days after the expiration of the warranty, also if the defect has not been recognizable before expirations of the 5-year warranty period. Any glass replaced or repaired under this warranty is limited by the original warranty period and shall not be extended beyond the original five years.
- The conditions for quality complaints according to the manufacturer’s general conditions of sale for export shall apply.
- If PYRAN® Platinum-L is exported to a country other than where the initial delivery has been made, the warranty will only be valid if the manufacturer has accepted this exportation.
- Building and safety codes vary widely throughout the world. United Plate Glass does not control, nor will it be responsible for the selection of product supplied by others, configurations, or the glazing materials used in the manufacture of its door, window or wall systems. United Plate Glass will fabricate to dimensions shown on approved drawings but will not take responsibility for failure of submitting party(s) shop drawing dimensions against job site conditions. In no event will United Plate Glass be liable for direct, indirect, special or consequential damages including but not limited to loss of profit or use.
- United Plate Glass reserves the right to inspect or have returned all products alleged to be defective excluding shipping and handling costs.
