

Soft Water

SYMPTOMS

Water spots are removed with soap and water.

Clean, as needed, with effective cleaners like Windex.

Hard Water

SYMPTOMS

Water spots are removed with vinegar.

Clean, once every 15 showers, with a 50/50 solution of vinegar and water.

Silica Water

SYMPTOMS

Water spots are not removed with vinegar.

Clean, once every 10 showers with Soft Scrub Cleanser and a Scotch-Brite Non-Scratch sponge.

Cleaning frequency recommendations are guidelines only. Actual cleaning frequency will depend upon humidity, degree of water hardness, shower temperature and other variables. In cases with extremely high silica content, it may be helpful to squeegee as needed between cleanings.
